

SMARTGOV FOR HEALTH

MPILO CITIZEN ENGAGEMENT APP

Mpilo is your SmartGov solution for a connected and responsive healthcare system.

It empowers citizens, streamlines healthcare management, and enables effective response to public health emergencies.

KEY FEATURES

Enhanced Citizen Engagement

Citizens have a direct line to healthcare facilities and management for complaints, compliments, suggestion and ambulance requests.

Improved Healthcare Access

A centralised healthcare directory simplifies finding contact details for facilities and management.

Efficient Inventory Control

Manage stock levels, orders and usage, ensuring healthcare facilities have the resources they need.

Effective Outbreak Response

Covid-19/Disease outbreak features include citizen self-screening, mass screening, contact tracing and monitoring for individuals under investigation, in isolation facilities or hospitalised.
